

LIFE LINKS @ Blackpool Sixth

Future Plans - Careers

→ Go to this web page: <https://www.bbc.co.uk/bitesize/careers>

→ Click the Link titled 'Where could your favourite subject take you?'

Fill the below table in with three of your favourite subjects from highschool, adding in where it can take you and what qualifications you need now at school and at college and university (*The information you need is all in the above link*)

Subject	Where can this take me?	What qualifications do I need
<i>Example: Biology</i>	<i>Example: Occupational Therapist, Nurse</i>	<i>Example: Occupational Therapist: 5 GCSEs 9 - 4 and work experience Nurse: 3 A-Levels at least 1 health related and a degree</i>

Based on the above what is your career aim:

Now you have thought about you favourite subjects and where they can take you (Awesome job), we need to have a think about our next steps after high school:

LIFE LINKS @ Blackpool Sixth

Future Plans - Careers

→ Navigate your way over to: <https://www.blackpoolsixth.ac.uk/courses/>

Although you can only pick 3 subjects it's good at this stage to keep your options open so have a think about 5 subjects at sixth form that will help get you to your career aim, using the research you completed above.

Subject	Specific Requirements	What will you study (Briefly)
A-Level Art: Photography EXAMPLE	If I do not have GCSE Art it is advised that I attend a taster session and open event.	I will have freedom to develop broad portfolios. I will learn the technical aspects of photography and advanced photoshop editing processes.

The Life Links programme at Blackpool Sixth will prepare you for life after college, whether that be employment, university or an apprenticeship you will have the skills to succeed in whatever path you decide to take.

Current plan after High school:

Sixth Form/ Apprenticeship	To study (Subjects)	What grades I need at GCSE
